NEW YORK, Sept. 4.-Bears who did not cover their contracts in the closing hours of yesterday did not like the action of the markets this morning. The patented story of the multi-millionaires selling out on each other did not ring true, and when the shorts tried to cover they put advanced prices on themselves

That the market is being manipulated goes without saying. That conditions are such as to tend to reduce opera tions to a narrow volume can not be de nied. Harriman and his following, s far as inside information and street rumors are concerned, are still doing the muscle act, pushing for higher prices, and many 67 the big men of the Street are looking for developments that will account for much of the gain and that in turn will be helped along by the advance of the last few weeks.

Harriman's Policy.

It has been the policy of Mr. Harriman to discount events that are likely to be considered favorable to his properties, at least so far as the market is

The extent of the bear interest in its operations yesterday and on previous days of the week was really more interesting to the traders than the reported quarrels and unloading by mil-

At the immediate opening, on the strength of the London market, the tone was decidedly immer. For a few minutes there was a little hesitation, Odell & Co. having 5,000 shares of Steel common to sell and Mr. Harriman himself being a seller on some of his favorites. The effect of these developments was but momentary, checking the rise with a fractional reaction, and then the merry upward movement was resumed to a substantial advance in all the leading stocks and the recovery of 2% points of yesterday's loss in Smelter, 14 on Union Pacific, and 42 to 144 points in the general list of rails and a few of the industrials.

Evening Un Contract: the immediate opening, on the

There are many stop-loss orders on the market that may offer good opportunities for gunning. Many operators believe that it is a good thing to step aside from the activities of the exchange cocasionally and study conditions. This policy is now in vogue. They have no idea that Mr. Harriman and his allies are going to abandon their plans for higher prices, but they do not like to follow in view of possible adverse legissistation, possible political disappointments and with prices on their present high level. The price of forty-one railway stocks is 79.98 today as compared with 80.54, the highest point of the year.

Stock Exchange Investigation.

A news agency sent out the report that the stock exchange have been informed that further delving into the manipulated market of Saturday the 22d ult., and Brown & Co.'s transactions, would develop the fact that Mr. Harriman has been washing millions of shares during the past few months.

In place of yielding as the session wore on, the market gained in strength and additional fractions were added to the gains of the morning. The volume of business was somewhat lighter than the Thursday, but the shorts found that (Quofations furnished by E. F. Hutton & Co., members New York Stock Exchange. G. Bowle Chipman, manager, 1301 F street northwest.) there was little stock for sale and that, at there was little stock for sale and that, at they would go home even over the two days' adjournment, they must take their medicine, and this they did.

The general character of the news was in no way changed. Harriman brokers were busy when it was necessary, giving the kind of encour general that causes improvements—buying orders and liquidating when the strength seemed to warrant it.

Southern Pacific rallied to 108%, and

Giving his name and address, he declared the body in the trunk was that of his wife, and appeared perfectly willing to tell the officers everything connected with the case. For more than four hours last night Jordan was closeted with the police, and time after time went over the horrible details. He professed that he was dazed when the crime was committed, yet, by the clearness and conciseness of his statement, it seemed apparent that whatever preceded the actual killing, the most careful plans were laid for the disposition of the body and the covering up of the crime.

Mrs. Jordan was Mrs. Hanorah Eddy.

of the body and the covering up of the crime.

Mrs. Jordan was Mrs. Honorah Eddy, whose matten name was O'Reilly, and whose home was in Somerville, in September, 1994. Jordan did not know who his wife's first husband was, or what became of him. The couple went on the vadeville stage, Jordan taking the part of a tramp and his wife that of a nurse, in a sketch. They went first to Butte, Mont., four years ago, but only remained three or four weeks, as the climate did not agree with them. Later they went to C'licago and appeared in some of the smaller theaters, remaining three months. About three years ago they returned to Somerville and took the first-story flat in the house at 509 Medford street.

Mrs. Jordan according to her husband, had taken to drinking of late. He says she was associating with other men, and he became jealous. The murder was frompted by jealousy, the police say.
